AZULIK HOTEL 5*

Nature, art and ritual in the purest form

Renowned for its unparalleled organically-inspired architecture, the pioneering hotel in sensory hospitality has established itself as an emblem of barefoot luxury, thanks to its culinary experiences and holistic vision of wellness, which pay homage to ancestral traditions, and its creative avant-garde.

AZULIK HOTEL 5*

Organic architecture and spiritual luxury

Azulik offers 48 crafted villas built from natural materials such as wood and bamboo, suspended among the treetops. Designed to encourage introspection and relaxation, they have no air conditioning, television or electric lights, allowing total immersion in the natural surroundings. Each villa features mosaic bathtubs fed by cenote water and hanging Balinese beds on private terraces, creating a unique accommodation experience.

Ancestral wellness and healing

The Maya Spa, recognised as a Luxury Alternative Healing centre, is the spiritual heart of Azulik. It offers traditional Mayan therapies, Temazcal ceremonies, yoga classes and purification treatments using natural elements and the sounds of ancient instruments. All designed to heal body, mind and spirit in a sacred environment.

Azulik Tulum is not just a hotel, it is a transformative experience that invites visitors to disconnect from the modern world and reconnect with the essential, in an environment where nature, art and spirituality converge harmoniously.
